

A silhouette of a person standing in front of a large window, holding a long-handled tool (possibly a squeegee or mop) and cleaning the glass. The person's reflection is visible on the polished floor.

SPRING CLEAN LIMITED

Managing your facility...
...facilitating your growth.

An ISO 9001:2008

Spring Clean Ltd.

About the company

Maintaining the neatness of an office is prerequisite to enchant patrons. Finding the right company to keep your commercial space clean and beautiful can be difficult.

Your search ends at Spring Clean Ltd. that provides a wide range of cleaning services, all which can be customized to meet your unique needs.

Spring Clean Ltd. is a subsidiary of Chemical & Metallurgical Design Co. Ltd - A Paharpur Group Company that provides 360-Degree Soft Services under one roof.

Paharpur Business Centre (PBC) is an **ISO 9001, 14001, 22000, 50001, SA 8000 & OHSAS 18001 certified**. PBC is the first **USGBC Platinum**, retrofit building in India under **LEED** for Existing Buildings (O&M) and Bureau of Energy efficiency 5 star rated.

The expert team of Spring Clean Ltd. offers integrated and customized services to clients seeking increased business value.

Spring Clean Ltd. encompasses innovative mechanized technology and brings forth the highest degree of capabilities, competence and commitment.

It is committed to providing quality services to its large customer base and firmly believes in good hygiene practices.

Spring clean Ltd. maintains India's First USGBC LEED and BEE 5 star rated retrofit building

The chemicals used in building maintenance can have negative impacts on building systems and finishes. Different surfaces need specific chemicals and use of wrong chemicals can damage the expensive surfaces. Therefore, implementation of green housekeeping techniques is important.

Green housekeeping services provided by SpringClean, help improve health and safety by adopting green cleaning techniques like reducing waste, ensuring proper dilution methodology for all chemicals, thereby reducing end use costs for cleaning products.

In green housekeeping special attention is given to the products used in building maintenance as these have large impact on building users and the indoor environment.

We use high-end tools and equipment of various brands and models.

To render quality services, we use the latest technology, branded machines available in the market today.

SpringClean™ is committed to building a healthy and positive environment for our customers.

Distinct benefits of a well-maintained work area includes improved workplace efficiency, increased employee morale and brand image.

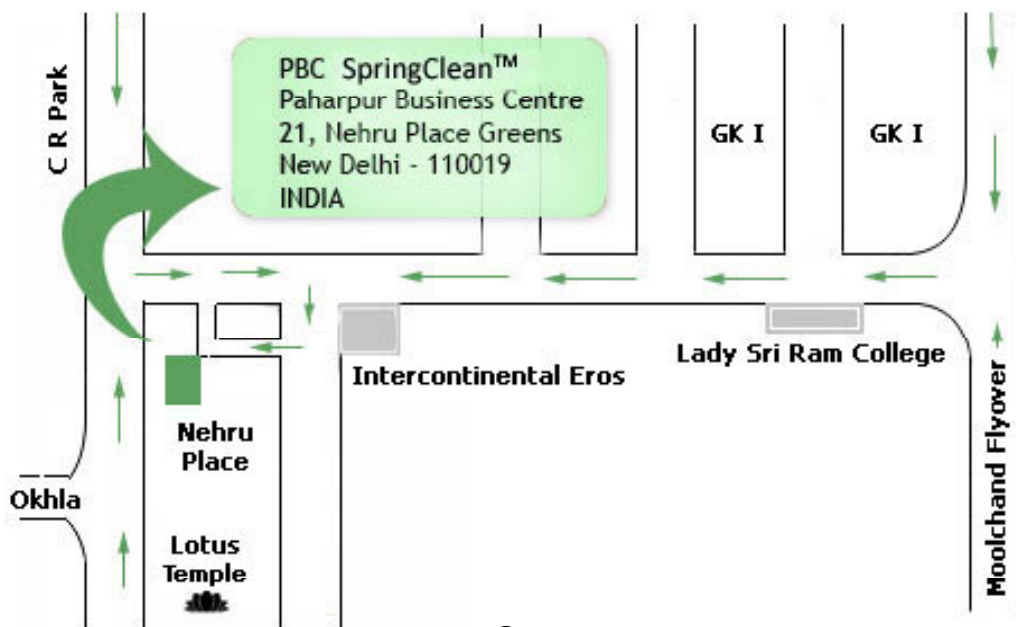

We are a premier housekeeping service provider, offering services to maintain different kinds of commercial and non-commercial facilities. We provide housekeeping services like pest control services, pantry services, office spring cleaning, Venetian blinds cleaning, window glass cleaning, floor polishing, floor scrubbing, etc.

SpringClean™ is dedicated to meet the challenges of Housekeeping solutions and in such a short span have already earned the confidence of many reputed clients.

We consistently approach for upgrading our services with the latest technology, coupled with unique understanding of the client's requirements.

Spring Clean Ltd. aims to provide value to customers adhering to all statutory and legal compliances of the land.
